Dartle

Discover and Get Discovered

Why Dartle Matters

“Sports in India are not seen as a viable career option. This is due to a severe lack of opportunities, lack of awareness of the sports hierarchy, lack of visibility in remote areas and lack of transparency as the result of undue politics. Only 1% of the deserving get their chance. Personally, my ambitions to become a basketball player was shut down by my own coach. In his words, “Sports was only the means to get reservation on public sector jobs”. Combining this with the fact that in India there are 400+M people who take active participation in Sports, the statistic is agonising. ”

- CEO, Nihal pradeep

About

Dartle is a community sports platform that connects sports opportunities to opportunity seekers. Built with a familiar and easy to use interface, our focus is on ensuring that our country prospers as a sporting nation. Our dream is to give confidence to both parents and their children to pursue participatory sports as a viable career option.

The Dartle Way

Dartle envisions a truly democratic and inclusive sporting ecosystem. We want to become the sporting identity for each individual. For this, we have created a merit-based assessment using a proprietary algorithm and a specialised, standardised, transparent process of evaluation. Through this, greater opportunities can be created that are otherwise inhibited by geography, visibility and, for political reasons. But this isn't all, Dartle is a complete ecosystem with social media at its core. Organise online and offline events, book professionals, grounds and courts and stay connected to the sporting world with the latest news and fixtures from popular tournaments. We help you create your very own sports portfolio that can be shared anywhere. Invite your friends and help the community get bigger and bigger.

The Road To Glory

Our Core Features

Scouting Network :

Take the Dartle assessments as a testament to your abilities and be cherry picked by teams, coaches or institutions on our platform. If you are a certified coach, accept & conduct assessment tests to earn additional revenue.

Events :

Manage online and offline events directly on our platform. Our sports-specific platform includes everything you need to run and manage an event, from monetising live streams to booking venues, managing participants, and multi-tier registrations. Events are loaded, so stay tuned for more features.

Assessments :

To discover yourself better, Dartle puts you through a test/process based on which score will be generated. The score attests to your abilities, skills, and fitness, which are nationally/internationally recognized by the sporting community.

Information Portal:

Dartle serves sports fans with genuine content and detailed insights about international, national and local sports events. Dartle also opens up the opportunity for sports journalists to publish exclusive content and build their journalistic careers.

Profile & Venue Booking :

Booking nearby venues, grounds, and hosting events & matches has become easier and cheaper. Dartle lists the best coaches and academies, where the user has the option to book the best and nearest coach for assessments.
